

CAREER OPPORTUNITIES

Internship

Role

At Remedica, we are always looking to expand our team and recruit the best candidates. As a result, we offer a limited amount of internships each summer for undergraduates/postgraduates in various fields of Administration, Engineering, Production, Quality Control, Microbiology, Sales. etc. The objective of the programme is to offer a variety of diverse opportunities ranging from hands on experience within our several departments and team projects, to senior management meet and greets, which assist intern to prepare for their future careers.

Under the support of your internship mentor, you will assist with a variety of pharmaceutical and/or business science specific job assignments and you will contribute to our challenging and business critical projects.

If your application is successful, our HR Team will contact you regarding an Internship Opportunity in May.
