Junior Formulation and Process Development Scientist

Role

The role is responsible to conduct research and formulation trials for product development and re-development of new and existing generic drug products.

Qualifications for the job

- Bachelor in Chemical Engineering, Chemistry, and Pharmacy
- Master's degree in pharmaceutical sciences preferred with minimum 1 – 3 years of experience is preferred.

Duties and Responsibilities

- Monitoring/participating in the final trials of prototype development in the R&D unit, in order to understand the product's behaviour.
- Evaluation of the product technical suitability at Remedica with the guidance of Supervisor/Head
- Conducting literature research on the originator drug product (RLD)/drug substance prior to the initiation of lab activities including Product & API patent (if applicable) with the consent of Supervisor/Head
- Technical aspects: Designing of the formula & process as per QbD, evaluate equipment feasibility, API physical characterisation, DEC study, feasibility/prototype trials/scale up trials including the optimization of process and process parameters, stability testing in accordance to the specifications as per the guidance of Supervisor/Head.
- Planning, organising, follow-ups must be made to achieve target timelines among technical teams as per the guidance from the Supervisor/Head
- Compiling/reviewing formal documentation required for product registration purposes

Required Skills

- Accuracy and close attention to detail
- Sufficient analytical skills & mind set to interpret the analytical data in order to decide on the further product formulation activities
- Strong analytical skills and mind-set
- Demonstrated ability to work in both independent and team environments
- Ability to work under pressure with minimum supervision
- Excellent communication skills
- Organization skills
- Time management skills and ability to prioritize and manage multiple tasks
- Fluency in English writing and speaking
- Good MS skills (Word, PowerPoint, Excel)

An attractive remuneration package depending on qualifications that includes 13th and 14th salary, Provident Fund, medical cover, gym access, bus services etc are offered. Interested candidates should apply online through Remedica's website www.remédica.eu
