Junior Technology Transfer and Scale Up Scientist

Role

The role is responsible to conduct the Technology Transfer / Scale up of prototype formulations from the R&D unit to the production department, validation productions, production troubleshooting and API changes for R&D developed products.

Qualifications for the job

- Bachelor in Chemical Engineering, Chemistry, and Pharmacy
- Master's degree in pharmaceutical technology preferred

Duties and Responsibilities

- Monitoring/participating in the final trials of prototype development in the R&D unit, in order to understand the product's behaviour.
- Executing the procedures required to perform the scale up of prototype formulations to the industrial scale, setting up master documents and performing trials at bigger scale if necessary
- Executing the process validation procedures during the manufacturing of the validation batches and the production of ICH stability samples.
- Executing process validation required for API changes for older R&D developed products
- Cooperates with other R&D teams during a certain process
- Collecting data in order to compile scientific written responses to deficiency letters from authorities
- Maintaining accurate records of the Technology Transfer / Scale up activities and communicating results to R&D Management
- Writing and/or assisting in the write up of documents related to Technology Transfer and Scale Up following guidance from Senior Formulation Scientist.

Required Skills

- Accuracy and close attention to detail
- Strong technology transfer and scale up skills and mindset
- Demonstrated ability to work in both independent and team environments
- Ability to work under pressure with minimum supervision
- Excellent communication skills
- Organization skills
- Time management skills and ability to prioritize and manage multiple tasks
- Fluency in English writing and speaking
- Good MS skills (Word, PowerPoint, Excel)

An attractive remuneration package depending on qualifications that includes 13th and 14th salary, Provident Fund, medical cover, gym access, bus services etc are offered. Interested candidates should apply online through Remedica's website www.remédica.eu
